REMARKS

Claims 1-6 and 8-29 are pending in the application. Claims 1-6 and 8-29 are allowed.

Examiner Wang is thanked for discussing the present application in a telephonic interview held October 17, 2006, in which the specific amendments required to overcome the outstanding rejection was discussed. During this interview, it was noted and agreed that where a trademark is used together with the recitation of generic terminology, further amendments of each subsequent usage of that trademark is not necessary because the objective of respecting the mark is met. This agreement is very much appreciated, in that it avoids the need to submit a replacement specification.

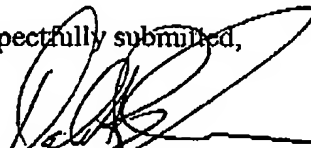

The specification has been amended to recite the generic terminology associated with the trademarks, as required in the Office Action. It is respectfully submitted that amendment of the specification to include the well known generic identity of each of these marks does not introduce new matter.

CONCLUSION

It is respectfully submitted that all of the pending claims are in condition for allowance, and respectfully request notification thereof. In the event that a phone conference between the Examiner and the Applicants' undersigned attorney would help resolve any remaining issues in the application, the Examiner is invited to contact the attorney at (651) 275-9811.
